

Policy for a Smoke-Free School

Ysgol Gymraeg Gwaun y Nant

OBJECTIVES

The school has a responsibility to promote healthy lifestyles. To this end, the objectives of the school's no-smoking policy are:

- To protect non-smokers from environmental tobacco smoke.
- To demonstrate the school's commitment to increasing healthy lifestyles in its staff and pupils and parents.
- To educate pupils, visitors and staff as to the severe health risks of smoking and the substantial benefits of stopping smoking.

The school will therefore be considered as a non-smoking environment. Smoking will not be allowed within the school or within the school grounds.

Visitors are not permitted to smoke on school premises. This includes governors, parents, suppliers, peripatetic staff, support staff, supply teachers, County Council officers and repair workers. This policy will also apply to all people attending events held on the school site. Signs will be placed in prominent positions around the school.
